A trip to Noto like no other place in Japan!

Take a trip to the Noto region for excitement, impression and relaxation.

The Noto Peninsula has an outstretching typical Japanese scenery and also has the Satoyama Satoumi which has been recognised as a Globally Important Agricultural Heritage System (GIAHS).

MAP-1 **GIAHS** **Shiroyone Senmaida (rice terrace)**

With the ocean as a backdrop, Shiroyone Senmaida is a rice terrace of over 1000 small rice fields clustered in a greenery of geometric shapes. In each season, the view of the rice fields changes with the growth of the rice plants, making this rice terrace a special landscape.

Recommendation for summer!

Our recommendation for getting to Noto from Kanazawa is the Noto Satoyama Kaido drive course. The changing scenery of the coastline is impressive.

ONLY HERE!
Chirihama Nagisa Beach Driveway. The only place in Japan where cars can drive on a sandy beach. You can even ride a bicycle on it. There is no greater feeling than riding a bicycle with sea breeze brushing against your cheeks.

Cycling
